Image Problem Mailbox.**

**LISTING OF CLAIMS:**

1. (Currently Amended) An accessory adapted for use with a hair dryer comprising a body defining a passageway with at least first and second openings, a connector for connecting said accessory to a hair dryer at said first opening, and at least one retainer retaining a substrate in said passageway adjacent said second opening, said substrate being made of a material selected from a group including ceramics and sponge, and receiving an oil-based scented medium.
2. (Original) An accessory according to Claim 1 wherein each of said first and second openings is at a respective longitudinal end of said body.
3. Canceled.
4. Canceled.
5. (Original) An accessory according to Claim 1 wherein said body is connectable to a front end of said hair dryer.
6. (Previously Presented) An accessory according to Claim 1 wherein said body is adapted to be removably connectable to said hair dryer by clipping, snapping or screw-fitting.

7. Canceled.
8. (Original) An accessory according to Claim 1 wherein said substrate is adapted to withstand a temperature of at least 45°C.
9. Canceled.
10. Canceled.
11. (Previously Presented) An accessory according to Claim 1 wherein said scented medium is evaporable at an elevated temperature.
12. (Previously Presented) An accessory according to Claim 1 wherein said scented medium is an aromatic oil.
13. (Previously Presented) A hair dryer comprising an accessory as claimed in Claim 1.
14. (Currently Amended) A hair dryer assembly comprising a hair dryer and an accessory adapted for use therewith, wherein said accessory comprises a body defining a passageway with at least first and second openings, a connector for connecting said accessory to said hair dryer at said first opening, and at least one retainer retaining a

substrate in said passageway adjacent said second opening, said substrate being selected from a group including ceramics and sponge, and receiving an oil-based scented medium.

15. (Original) A hair dryer assembly according to Claim 14 wherein each of said first and second openings is at a respective longitudinal end of said body.

16. Canceled.

17. Canceled.

18. Canceled.

19. (Previously Presented) A hair dryer assembly according to Claim 14 wherein said body of said accessory is removably connectable to said hair dryer by clipping, snapping or screw-fitting.

20. Canceled.

21. Canceled.

22. Canceled.

23. (Previously Presented) A hair dryer assembly according to claim 14 wherein said scented medium is evaporable when air heated by heating means of said hair dryer passes through said passageway.

24. (Previously Presented) A hair dryer assembly according to Claim 14 wherein said scented medium is an aromatic oil.

25. (Currently Amended) An accessory ~~according to Claim 1~~ adapted for use with a hair dryer comprising a body defining a passageway with at least first and second openings, a connector for connecting said accessory to a hair dryer at said first opening, and at least one retainer retaining a substrate in said passageway adjacent said second opening, wherein said substrate is refillable with said an oil-based scented medium.

26. (Currently Amended) A hair dryer assembly ~~according to Claim 14~~ comprising a hair dryer and an accessory adapted for use therewith, wherein said accessory comprises a body defining a passageway with at least first and second openings, a connector for connecting said accessory to said hair dryer at said first opening, and at least one retainer retaining a substrate in said passageway adjacent said second opening, wherein said substrate is refillable with said an oil-based scented medium.

27. (Previously Presented) An accessory adapted for use with a hair dryer comprising a body defining a passageway with at least first and second openings, a

connector for connecting said accessory at said first opening to said hair dryer and at least one retainer retaining a substrate in said passageway, wherein said substrate is made of ceramic material.

28. (Previously Presented) An accessory according to Claim 27 wherein said substrate is refillable with a scented medium.

29. (Previously Presented) A hair dryer assembly comprising a hair dryer and an accessory adapted for use therewith, wherein said accessory comprises a body defining a passageway with at least first and second openings, a connector for connecting said accessory at said first opening to said hair dryer and at least one retainer retaining said substrate in said passageway, wherein said substrate is made of a ceramic material.

30. (Previously Presented) A hair dryer assembly according to Claim 29 wherein said substrate is refillable with said scented medium.
